

CRASH: At your service

New Newry site for leading accident management company

CRASH, Northern Ireland's leading Accident Management Company, has opened a new branch this week on the Belfast Road in Newry and is promising local motorists involved in road accidents an instant service to get back on the road.

CRASH has been a real success story since the business began in 1996 here in Newry.

CRASH now employs over 50 staff and helped over 7,000 motorists last year across Northern Ireland. In order to bring its service closer to the public CRASH is embarking on a £1million regional network expansion strategy, with six sites planned to open in the coming years.

The first site was launched at Stockman's Lane in Belfast in January earlier this year and a second site in Newry last Friday.

Michael McKeown, managing director at CRASH, said: "Our success has been built around customer service and we have identified a need for CRASH Repair Solutions in the Newry and Mourne area.

"We aim to provide a concierge service for busy motorists who have been involved in an

accident and want a hassle free car hire and repair solution. Motorists will be able to turn up at our new site, drop off their damaged vehicle and drive away in a hire vehicle within minutes.

"Having a motor accident can be a stressful experience, even if it is only a minor bump.

"Our customers tell us that it is great to have someone working on their behalf - someone who can sort everything in just one call. Our unique service includes providing insurance approved repairs and like for like vehicles.

"Motorists will benefit from talking to our staff face to face. Every accident is different and it is important that motorists are given the right advice on how to best handle the aftermath so they can get back on the road with as little disruption as possible."

CRASH also offers access to a mobile investigation service if there is a dispute regarding the liability of an accident.

Experienced investigators are dispatched to the scene of an accident and use their expertise to dispel any confusion around liability. This has proved invaluable for CRASH customers over the years.
